News for the Access Control Professional

VISIT FARPOINTE DATA AT ISC WEST 2021

JULY 19-21, SANDS EXPO, LAS VEGAS, BOOTH #5076

Electronic access control professionals will have the opportunity to review our full range of RFID access control readers and credentials. Register for a FREE Expo Pass, then visit us at booth #5076 to learn more about any of the following solutions:

- **Conekt® Mobile-Ready Access Control ID Solution**
Allows smartphones to be used as access credentials
- **Ranger® 433-MHz Long-Range Receivers & Transmitters**
Long-range access at the click of a button
- **Delta® 13.56-MHz Contactless Smartcard Readers & Credentials**
An added layer of protection for security-sensitive applications
- **Pyramid Series Proximity® 125-kHz Readers & Credentials**
A fusion of excellent read range, lightning speed and easy installation
- **Vandal- and Bullet-Resistant Rugged Readers**
Maintain access control security even in the most extreme conditions
- **OSDP Technology Support**
Supporting the next generation of access control communications

Conekt Mobile-Ready Proximity Readers: PCR-640L, PCR-35L and PCR-620L

Mobile-Ready Proximity Readers

Farpointe has expanded its Conekt line of mobile-ready readers to include options that support 125-kHz proximity technology. This important development will assist current proximity users in easily transitioning to a mobile solution. The new PCR-Series is capable of reading Conekt mobile smartphone credentials, as well as traditional physical proximity cards and tags.

Mobile-Ready Proximity Models:

- **PCR-35L** 2-in-1 Mullion/Single-Gang Box Reader
- **PCR-620L** Mullion-Mount Reader and Keypad
- **PCR-640L** Single-Gang Box Mount Reader and Keypad

Shep Sheppard
Key Accounts Sales Manager

Multiple credentials—which use a smartphone’s Bluetooth Low Energy (BLE) technology to communicate with Conekt mobile-ready readers—can be loaded into the Conekt Wallet App.

Mobile Access Credentials

With a convenient cloud-based delivery system and no physical credentials to inventory, CONEKT® CMC-2 Mobile Credentials are quicker and easier to order, distribute, and maintain.

Benefits:

- Supports both industry-standard and custom access control formats
- Delivered in the exact ID sequence ordered—no under- or over-runs
- Options to private label—logo, graphics, text and more
- Secured by AES encryption—proven data protection
- Operates on Apple® iPhone® and Google® Android™-based smartphones

Farpointe OSDP Verified

Farpointe Data is honored to be among the first three manufacturers to have earned the Security Industry Association’s (SIA’s) new OSDP Verified mark on its mobile, contactless smartcard and proximity solutions.

The Open Supervised Device Protocol (OSDP), which was recently made a global standard by the International Electrotechnical Commission (IEC), provides interoperability among various companies’ access control and security products.

According to SIA, the OSDP Verified mark instills confidence in integrators, specifiers and practitioners that devices have been tested and verified to meet stringent SIA OSDP standards.
