- **PCR-620L** Mullion-Mount Reader and Keypad
- **PCR-640L** Single-Gang Box Mount Reader and Keypad

<u>LEARN MORE</u>

Ranger Long-Range Receivers and Transmitters

Long-Range Access Control

Ranger® is designed for parking structures, gated communities, storage facilities, marinas, or other long-range applications where RFID readers may not be ideal.

Key Features of Ranger:
- No line-of-sight required between transmitter and receiver
- Easily install and program just like traditional readers and credentials
- 2-Channel **WRR-22 Receiver** has a fixed read range of up to 100 feet
- 4-Channel **WRR-44 Receiver** has an adjustable read range of up to 200 feet
- 1-channel **RER-11 Edge Receiver** for standalone and remote access points
- **WRT-2+ and WRT-4+ Transmitters** are equipped with a proximity or contactless smartcard module for use as traditional presentation credentials with RFID readers

<u>LEARN MORE</u>

Multiple credentials—which use a smartphone's Bluetooth Low Energy (BLE) technology to communicate with Conekt mobile-ready readers—can be loaded into the Conekt Wallet App.

Mobile Access Credentials

With convenient cloud-based delivery and no physical credentials to inventory, CONEKT® CMC-2 Mobile Credentials are quicker and easier to order, distribute, and maintain.

Benefits:
- Supports both industry-standard and custom access control formats
- Delivered in the exact ID sequence ordered—no under- or over-runs
- Options to private label—logo, graphics, text and more
- Secured by AES encryption—proven data protection
- Operates on Apple® iPhone® and Google® Android™-based smartphones

DATA SHEET

We Invite You to Schedule a One-on-One Meeting During ISC East

Have a specific access control need? Make your show experience more effective, and reach out to one of our experienced industry experts ahead of time to schedule a meeting.
